

**(CONFIDENTIAL)**

Assistant Director for Operations

10 June 1948

Chief, FBIB

ORR Evaluation of OO Intelligence Reports

Reference: Memo to AD/RE from AD/O, subject as of above 26 May 1948

1. FBIB concurs in the statement of the problem and the proposed solution as set forth in reference memorandum.
2. Particular emphasis is placed on paragraph 1 (b) and 2 (b).
3. It is suggested that the consolidated memorandum to ORR include a statement to the effect that most "of no value" and "of little value" evaluations of OO-F reports are caused by the material being a duplication of that which has already appeared in the Daily Report. It is believed that FBIB should not be required to cut master dittos on items which are only partial or related answers to CDs. Special reports of material contained in the Daily Report should only be made when the material covers a wide range of time, subjects, and space (such as: Report on Soviet transportation; Report on Soviet Agriculture), and is therefore in need of excerpting and reorganization.
